### SUMMARY

Proactive and results-driven Data Analyst with experience in optimizing data collection, processing, and analysis. Skilled in acquiring data from multiple sources and developing scalable data platforms. Wellversed in creating new data collection systems that optimize data management, capturing, delivery and quality.

### WORK EXPERIENCE

#### Unified Mentor – Data Science Intern (Remote India)

7/2024 – 9/2024

- Conducted data cleaning, analysis, and visualization on over 10M+ records, improving sales forecast accuracy by 15%.
- Developed customized dashboards for Amazon sales data, improving team collaboration by 20%.
- Optimized ETL data pipelines, reducing processing time by 15% and streamlining workflows.

### PROJECT WORK

#### Accenture Forage North America – Supply Chain Dashboard Project

10/2024 – 12/2024

- Increased data accuracy by 30% and enhanced operational efficiency by 25% through advanced data cleansing.
- Identified key supply chain insights with cross-functional teams, reducing lead time by 10% and saving \$500K.

#### Unified Mentor – Amazon Sales Data Analysis

7/2024 – 9/2024

- Applied machine learning and statistical analysis to customer behavior data, increasing retention by 10%.
